We had a very unique request for our cake design & had an idea which we really loved. They then carefully guided us through the process and advised us what could be achieved and how the cake would finally look. Their artistic abilities in making all the detailed moulded figures and fine detailing were out of this world, the final execution & delivery was excellent and we never had any worries. The cake both looked amazing and tasted even better. The reaction from our guests made it all worth it

I cried when I saw my wedding cake, it was absolutely stunning. Some people didn't believe it was real, they thought it was a real tree. It tasted delicious and its memory will stay with everyone forever. Debbie and Giles are in a league of their own and were lovely! Thank you so much. These two have to win, how could they not?! Outstanding!

This cake was a work of art! None of our guests could believe that every component was edible at all. Not only did the cake look incredible, but it tasted lovely too and catered perfectly to our guests with dietary restrictions. Sassa's Bespoke Cakes was a pleasure to work with, providing sound advice and proactively communicating with us at every stage. My husband and I knew we could trust them to deliver on our vision and they certainly didn't disappoint.

Fantastic overall service and exceptionally high quality cake complimented on by all of our guests. Looked as good as it tasted and tasted as good as it looked. I had a very specific idea of what I wanted for my wedding cake and they matched it to perfection, a wonderful moment walking to the top table and seeing it there on the table exactly as I had imagined.

I found Sassa's cakes online and was amazed by the quality of their work. I then saw them at a wedding show and tasted a sample of their cake which was equally as good a quality as the look of the cakes. I booked them really in advance as I didn't want a traditional looking cake. I had 100% confidence in them from the start. The communication was brilliant and we met for a couple of consultations and cake sampling. Not the day the cake was just perfect. A real talking point with the guests.

The cake that Sassa's produced was amazing. The cake they produced for my wedding was exactly what I was looking for and fitted my theme perfectly.

There was so much intricate detailing on the cake with a icing teacup and flowers which were so realistic. My guests said they had never seen such a lovely cake before. The communication before the wedding was excellent and they responded to email quickly and kept me up to date. I can't fault Sassa's cake at all and was so happy.

Sassa's Cakes are AMAZING!!!!!! Super reliable (I think I have had more than half a dozen birthday, celebration, cakes from them as well as my wedding cake!) and fantastically innovative. Every cake is perfection and the brief is interpreted so well - every time they exceed expectation and delivery something 10x better than I imagined. They are lovely to deal with and 'bend over backwards' to help. I will carry on using them for family and friends cakes forever! Such a lovely couple too!

Being a coeliac it was hard to find someone that was willing to make the whole cake wheat and gluten free. Sassas did this amazingly nobody ever knew the detail on our cake was just out of this world everyone said how amazing it looked and tasted! To make matters even harder for them we had to make sure that no strawberries were used as grooms mum is allergic to them to the point of not even being able to touch them! Wish I could rate higher loved so much we are looking for a reason reorder!

I can't praise highly enough Giles and Debbie from Sassa's Bespoke Cakes for their services and for the memories they've created for us! My wedding cake was quite literally a work of art and was exactly what I've asked for. It was a three tier, navy blue and ivory cake topped with the delicate, life like sugar peonies and a birdcage veil. The peonies theme has continued, cascading down the tiers in a form of hand painted flowers on icing. Not only it looked

amazing, it was absolutely delicious!

The craftsmanship was impeccable, the colours were perfect, and every single person that saw the cake, including the staff, said it was the best wedding cake they had ever seen.
